Women's Institutes Entertained At Kirkcaldy

The Kirkcaldy Women's Institute entertained three outside institutes namely, Reid Hill, Thigh Hill and Good Deeds on Thursday, July 22, at the Community hall, with a very good turnout of members from each district.

Mrs. Bert Malsey opened the meeting with a word of welcome to the visiting institutes. The program was then turned over to the conveners, Mrs. Flitten and Mrs. Galbraith.

Mrs. Harry Douglass of Vulcan gave a very interesting and tasty demonstration on vegetable flowers, showing attractive ways to garnish cold meat and salad dishes using beets, carrots and other vegetables.

Two readings by Miss Nettie Ware, a solo by Mrs. Galbraith and two readings by Mrs. Flitten were all very much enjoyed.

A raffle of a hand-worked tea cloth donated by Mrs. Henry Todd was won by Mrs. Winnifred Howerton.

A delicious lunch was served at tastefully decorated tea tables with vases of flowers donated for the occasion by members of the Kirkcaldy Institute. Mrs. R. Robie deserves mention for flowers donated. Mrs. Malsey supplied strawberries from her own garden for the ice cream and a vote of thanks was extended to her.

On behalf of the Good Deeds Institute, Mrs. McMaisters gave a vote of thanks to the Kirkcaldy branch. Mrs. E. Deal gave a vote of thanks from the Thigh Hill branch and Mrs. Jack Marshall spoke in behalf of the Reid Hill branch for a very lovely afternoon, also extending an invitation to the Kirkcaldy Institute to attend an afternoon at the Reid Hill hall in August, with the Reid Hill Institute entertaining.

Nominate Dr. G. M. Carson As Independent Candidate

Jonathan Wheatly Is Speaker At Nominating Convention

At an independent nominating convention held in Vulcan Monday afternoon, Dr. George M. Carson, well known retired medical practitioner of Vulcan, was the unanimous choice as independent candidate to contest the Little Bow constituency.

Dr. Carson, who retired from active practice in September, 1946, has been a resident of Vulcan since 1912, with the exception of three years overseas in the First World War as a captain in the medical corps.

In accepting the nomination, Dr. Carson said that the indifference of the voters would have to be overcome and that independent supporters must work to get the vote out. All citizens must take an active part in ensuring the maintenance of the democratic system of free enterprise.

Main speaker at the meeting was J. M. Wheatly, independent organizer and candidate in the Gleichen constituency. He charged that the Social Credit government had attempted to limit freedom of expression and freedom of the press with its actions against Dr. Charlotte Whitton for her I.O.D.E. child welfare report and against New Liberty magazine.

People who had invested their savings in provincial government bonds had suffered when the government repudiated its debt, said Mr. Wheatly, but when the debt was made good later on the stock companies who accumulated the bonds were benefitted. He also charged that many Treasury Branch loans were unsound.

Committees were appointed to handle the independent campaign in this constituency and plans were made for the holding of public meetings. J. T. Willard was chairman of the meeting.

Pioneer Champion Resident Passes

George Taylor

George Taylor, 66, died in the Holy Cross Hospital, Calgary, Monday, July 19. Mr. Taylor was born in Nottingham, England and came to the Champion district 43 years ago.

He is survived by his widow, Rachel; two sons, John at Champion, and Harry at Lomond, Alta.; five daughters, Mrs. Ken Robinson of Okotoks, Mrs. Wesley Knight of Carmanagay, and Mrs. Kenneth Bloxham of Champion, and Joyce and Shirley, still at home in Champion; nine grandchildren; one brother and two sisters in England.

Services were conducted by Rev. Peter Dawson at Champion, on Thursday, at 2:30.

Pallbearers were, R. Gardiner, S. Munton, M. Matlock, A. Hopkins, M. Munton, T. Hames.

Interment followed in the Champion cemetery.

Gooder Brothers, Calgary, were in charge of arrangements.

Advance Poll For Provincial Election

An advance poll will be held in Vulcan and in every constituency for the August 17 Alberta election, it has been announced. The advance poll for the Little Bow constituency will be held at C. B. Shimp's office, Vulcan, from 2 p. m. to 5 p. m. and 7 p. m. to 10 p. m. on the Thursday, Friday and Saturday of the week before that of the election. A. J. Miller has been named as Returning Officer for this constituency.

Voters are this year required to mark all ballots with numbers, with "1" for first choice, "2" for second choice and so on. The option of using an "X" has been dropped and ballots so marked will be spoiled.

Nineteen-year-olds who were given the vote for the first time in the 1944 election, will be eligible again in the August 17 election.

On election day the 43 polls in the Little Bow constituency will be open from 9 a. m. until 6 p. m.

Taxes Too High, Says Visitor

A recent visitor to Vulcan and guest at the Roy Walker home was Mrs. B. L. Williams of North Vancouver, B. C.

A former resident of this part of Alberta, Mrs. Williams had not visited Vulcan for many years, and expressed herself as being pleasantly surprised at the development of the town in recent years. She was particularly impressed with the Memorial Swimming Pool and the promising development of the Elks' Memorial Park. The skating and curling rinks also drew her praise.

Mrs. Williams, who is in the real estate business in North Vancouver, thought that building cost and real estate prices were much higher in Alberta than at the Coast.

She was of the opinion that taxes in Vulcan were far too high in relation to what the residents were receiving in the way of municipal services and town improvements.

Lloyd Armstrong New President Jr. U.F.A. Group

The third annual meeting of the Snake Valley Junior U.F.A. was held on Monday, July 19, at the Reid Hill hall.

The minutes of the previous meeting and last annual meeting and the financial report were read and approved. New officers elected were Lloyd Armstrong, president, and Phyllis Scotney, secretary-treasurer. Members of the retiring executive were Doug Smith, president; Einar Kumlin, vice-president, and Roy McIntyre, secretary.

The Snake Valley Juniors have had a very successful year and are looking forward to an even better one. They take an active part in the discussion of farm problems and were represented at the convention and junior farm week held at Edmonton. Their sponsorship of weaner roasts, skating parties and programs has resulted in increased community activity, and the group also has a well-organized softball team, the Snake Valley Cobras.

One of the organization's latest projects is a working bee held one day every month at one of the member's homes, with the object of helping that farmer with a job that could not otherwise be done. It is planned to bring basket lunches and stay the whole day. Names of those to be helped are picked from the group attending the previous bee. The first district farmer to benefit by this working bee will be Allan Sinclair.

The Juniors also sponsored a successful softball tournament on July 28, with \$50 in purses.

The next monthly meeting of the group will be held at the Berrywater school on Monday, August 9, and a good turnout of Reid Hill and Berrywater members is expected.

Legion Picnic At Stavely

A Canadian Legion zone picnic, the first of its kind in Southern Alberta, will be held on Sunday, August 8, at Willow Creek Pavilion, near Stavely. Members from Stavely, Macleod, Barons, Vulcan, Claresholm and Nanton branches have been invited.

Refreshments, games and all sorts of entertainment will be provided at the picnic, and it is expected that there will be a large representation of Legion members and their families from every branch in this zone.

Timely Rain Brings Over 3 Inches Moisture

Was Needed To Help Grain Fill; Outlook is Bright

A welcome general rain fell over Southern Alberta Tuesday and Wednesday of this week, with more than 3 inches recorded here.

In the Vulcan district, the rain started in late afternoon on Tuesday and continued as a slow drizzle all that night, with about one-half inch falling up to seven o'clock Wednesday morning. The rain turned into a heavy downpour Wednesday afternoon and continued to come down until about 8:30 Wednesday evening. Total precipitation from the storm was 3.10 inches, according to the record kept by Mr. Errett King, with over an inch and a half falling Wednesday afternoon alone.

The rain came at just the right time, as far as this district is concerned, for spring wheat crops are mostly just at the filling stage and with the field showing heavy stands of grain the need for moisture was beginning to show. Farmers are confident that this week's rain will carry the crop to maturity and although harvest will be possibly two weeks or so later than usual, a better-than-average crop is now anticipated.

Swathing of rye was getting under way this week and will now be delayed a few days. Available reports indicate that an exceptionally good rye crop will be harvested.

A hailstorm which struck north of Vulcan last Friday did heavy damage to several sections of crop north of the corner store. The only other damage reported in the Vulcan district thus far this season occurred west of town two weeks ago and was not extensive.

Fourteen Years School Secretary

After fourteen years as secretary-treasurer of the Vulcan District, D. A. McAfee has resigned that position. His resignation was accepted with regret at the school board meeting held Tuesday evening of this week and Miss Marjorie McIver was appointed as acting secretary-treasurer for the remainder of the year.

The board accepted the resignation from the high school staff of H. Fykes and of Miss G. Rogers from the public school staff. Mrs. Ruby Schlerman has been engaged as primary teacher and the board considered applications for the Grades 6 and 7 teacher and for the Grade 11 vacancy on the high school staff.

Discussion regarding the inclusion of the Vulcan School District into the Foothills School Division occupied the remainder of the meeting, at which Mr. Willard Love, Foothills Division trustee, was present.

New Store Will Open Next Month

A new business enterprise in Vulcan will open its doors to the public next month in the form of a 5c to a \$1.00 store, which will be operated by Mrs. J. P. O'Connell.

The new store will occupy premises in the Vulcan Furniture building and renovation work is now well under way. It is expected that the store will open for business the latter part of August.

Blood Clinic Here Aug. 5th

Due to a misunderstanding, the date of the Red Cross Blood Clinic's visit to Vulcan next month was given as August 4th. The correct date is Thursday, August 5th, when the clinic will be held at the Canadian Legion hall from 1:30 to 4 o'clock in the afternoon.

More donors are needed and anyone willing to donate blood for the Red Cross blood transfusion service should register as soon as possible at either drug store or by phoning Mrs. Jack Marshall in Vulcan.

Swim Course Qualifies Instructors, Life Guards

Red Cross Conducts Intensive Course For Local Swimmers

Sponsored by the Canadian Red Cross Society in co-operation with the Vulcan Lions Club, a course in swimming and water safety was completed last Friday at the Memorial Swimming Pool. Conducting the successful course was W. R. Ritson-Bennett, Provincial Director of the Swimming and Water Safety Program of the Canadian Red Cross.

There were nine entrants and eight successfully completed the course. Qualifying as instructors were Dale French, Duane Neville, Gordon Nault and Doreen Weber. Donald Mitchell, Mervin Brooks and Stanley Mainland qualified as assistant instructors and Jerry LaRoche received an intermediate swimmer's badge.

The course was very complete and covered all phases, from beginners' work to water sports, life-saving and resuscitation, with special emphasis on safety practices designed to eliminate as many water hazards as possible.

Vulcan now has a nucleus of qualified life-guards and instructors and classes have been initiated for all swimmers, from beginners on. At the present time approximately sixty are enrolled in these classes and as many more are anxious to receive instructions as soon as they can be accommodated in the classes.

At a meeting held at the swimming pool on July 25, an Aquatic Club was formed, with Miss Doreen Weber as president, Duane Neville as vice-president and Dale French as secretary-treasurer. The purpose of the Club is to promote aquatic sports in Vulcan, and the club's program will be co-ordinated with the Red Cross Swimming and Water Safety Program.

1299 Delegates to Liberal Convention August 5-7 Will Choose New Leader, Build New Party Platform

OTTAWA—To elect a new leader of the Liberal Party, and to build a new party platform, 1299 delegates with 840 alternates will come here from all over Canada for the third national Liberal convention to be held August 5-7.

The delegates who vote on questions put to the floor will, in a sense, represent the twelve millions of people of the Dominion. The delegation which will vote will comprise all Liberal M.P.'s and men and women who were Liberal candidates of the last federal election. There will be 735 delegates proper from the constituencies in the nine provinces, and 735 alternates. The Senate will be represented by 62; provincial representatives will total 140; there will be 12 national and provincial Liberal association presidents. Representation of provincial Liberal associations will be impressive. There will be 27 from women's associations; 51 from young Liberal associations; 51 from university Liberal clubs.

Public and party interest, of course, will center upon selection of the man who will follow Rt. Hon. W. L. Mackenzie King as leader of the Liberal Party and as next Prime Minister of Canada. That election will be an out-in-the-open affair. Nominations will be thrown open and there will be no restriction as to the number of people who may be proposed and seconded for the balloting. The balloting itself will take place on the last day of the convention and will be accompanied by every known device to insure that the votes truly express the free will of the delegates. The ballot forms were printed two weeks ago; and upon their arrival were stored in a safety vault by a group of officials of the National Convention Committee. Just before the balloting is due at the convention, these ballots will be taken from the vault again by several officials of the Convention Committee—and

THESE BALLOT PAPERS, being printed for the National Liberal Convention to be held in Ottawa, August 5-7, will decide who shall succeed Rt. Hon. W. L. Mackenzie King as leader of the Liberal Party. The printing, collating and stitching of these ballot papers necessitated special measures to insure protection of the documents, which later were transported to a safety vault in Ottawa, there to remain until taken under guard to the floor of the Convention for use by 1299 delegates.

transported under guard to the Coliseum. There, under the eye of officially appointed returning officers and scrutineers, the ballots will be opened and distributed to the voting delegates. After each vote, the counting will be done also under the eyes of scrutineers.

The Convention, the third which the Liberal Party has held since Confederation, will bring to Ottawa more than 3,000 Party members. At the Coliseum, where sessions will take place, there will be ample accommodation for the public in addition to delegates.

The official programme follows: August 4—Registration.

August 5—Registration; Convention opens; official address of welcome; election of Convention officials; appointment of committees; adoption of rules of procedure; speeches by representative Liberals; committee sessions.

August 6—Reports from committees; speeches by representatives; general business; election of scrutineers and tellers. August 7—Reports from committees; speeches by representatives; reading of rules governing voting procedure; reporting of nominations of candidates for Party leadership; election of Liberal leader.

Greater Prosperity in Town and Country

Modern Massey-Harris Machines Increase Output per Man and give the Farmers Greater Buying Power

On Saturday nights all across Canada, the shopping centres of towns and smaller cities are crowded with farm automobiles and farm people. Side by side, with the town dwellers, farm people buy all kinds of consumer goods, from breakfast goods to broadloom rugs, from canned goods to cosmetics, from radios to refrigerators.

Time was when farm buying was more limited, when farmhouse furnishings were more meagre. The change is due directly to the increase in the buying power of farm families.

The reduction in operating costs and increased output per man effected by modern farm machinery gives farm families today more income from their operations in supplying agricultural products for home and export markets and more money for both the necessities and luxuries of life. Greater prosperity for all.

Massey-Harris, builders of farm implements for over one hundred years, has contributed in no small measure to this progress through the development of modern labor-saving farm machinery.

"Shop at Home"

Vulcan merchants take great pride in their town and endeavor to bring about all the improvements necessary to give their customers the best in shopping satisfaction, both as to merchandise and shopping service.

District residents are becoming more and more conscious of the advantages of shopping in their community too. Not only is it convenient, but the quality of the merchandise available right here at home is the equal of that obtainable elsewhere. Anything and everything can be bought in Vulcan where practically every phase of business life is represented.

"Shop Locally" may be the slogan of the merchants, but it is much more than that. It is an invitation and a bit of wise counsel for the residents to patronize their merchants and at the same time to take advantage of the excellent services being offered close to home.

WITH THE District Agriculturist

PETER JAMIESON

HOW TO MEASURE HAY IN THE STACK

Although formulae are available for determining quite accurately the number of cubic feet in a stack, considerable error can occur in determining the number of tons.

E. B. Martin, Extension Agricultural Engineer, Alberta Department of Agriculture, says that some of the factors causing error are kind of hay, coarseness, moisture content, amount of rain after stacking, length of time in the stack, and method of stacking. The kind of hay and the length of time in the stack are the most important.

The following figures provided by Mr. Martin, are for the three main kinds of hay:

	Cubic Feet per Ton	
	30-90 days in stack	over 90 days in stack
Alfalfa	485	470
Timothy, brome, etc.	640	625
Wild Hay	600	550

To find the number of cubic feet in the stack, some measurements must be made:

1. Overthrow in feet (the distance from the ground up over the stack and down to the ground on the other side)
2. Width (Average width of the stack in feet at ground level)
3. Length (Average length in feet)

There are three main types of stack, and a somewhat different formula is applied in each case.

A. High round-topped stack—at least 14 feet high
(Ox0.52) - (Wx0.46) x W x L

B. Low round-topped—under 15
(Ox0.52) - (Wx0.44) x W x L

C. Square flat-topped stack
(Ox0.56) - (Wx0.55) x W x L

O—overthrow in feet
W—width in feet
L—length in feet

2,4-D on Flax

"Weeds are definitely an enemy of Flax. In addition, to crowding the crop to a point where yields are often reduced, weeds add to the difficulty of harvesting and cause heavy dockage. Spraying can be of major benefit".

This is a quotation from the bulletin "Flax-The Money Maker" published by the National Barley and Linseed Flax Committee, Winnipeg.

Last year the authorities were hesitant about recommending the use of 2,4-D. However, information collected proved that the Weed Killer could be used. This year many farmers have sprayed fields of flax and a number of them report that the fields looked sickly for several days after. This was to be expected, but in some cases the sickly stage lasted about 2 weeks causing some worry. Then these fields started suddenly to show a wonderful comeback. This goes to prove that firstly, 2,4-D can be used on Flax and secondly, that we do not yet know all there is to know about 2,4-D on Flax. It does seem that some varieties are more resistant than others. All our common varieties here will tolerate 2,4-D.

Turkey, not Holland, first was noted for tulips.
